

Excel4all

Microsoft Office Training & Consulting

We would like to introduce our self as a team of professionals engaged in delivering expert training and automation solutions on and around the **Microsoft Office Technologies**

Our speciality lies in the training module that we offer Based on our experience we have built a training module which equips people with the knowledge, Tricks Techniques, Tools etc required to handle their day to day job efficiently, besides helping them to reduce the process TAT and improve the accuracy of output This training is especially helpful for people working in companies which are engaged in providing IT, ITES BPO KPO Finance, **I**nsurance, **B**anking and **A**ccounting related services.

Our Seventeen years of experience and efforts is what our training module speaks today All those most asked question, queries, pain areas are all included and addressed in our training module Thus, today we equip people with the solutions and tools even before they face the problem.

Personal attention and Non-mechanical approach.

Course Content regularly upgraded.

Focus on real world application.

'Stare-at-the-projector' & 'Follow-the-instructor' approach never used.

Trainers are end users of Office Application and not IT guys.

Comprehensive take home material.

Facilitate quality learning.

Simple Solution to Your Hightech problems.

Industry specific contents with real time and practical examples.

Soft copy of the material Precise, handy and user friendly.

100% Return on Investment.

Post training support for 90 days.
